

Planned Maintenance at non-relevant points 2020

If there are temporal overlaps of maintenance activities, the lowest availability at all affected relevant points is valid.

Activity	Maintenance Start			Maintenance End			Duration	non-relevant point			max. available capacity (in kWh/h and %)
	Date	Time	CW	Date	Time	CW		Direction	Point	Quality	
Station works	postponed			postponed			8 days	Entry/Exit	WAG/MAB	FZK	0 kWh/h 0,0%
