

**Demand assessment report  
for incremental capacity between  
the Czech Republic (NET4GAS, s.r.o.) and the  
Austrian Market Area East  
(Gas Connect Austria GmbH) where no non-binding  
demand indications  
were received**

2021 – October – 25

This report is a joint assessment of the potential for incremental capacity projects conducted by

NET4GAS, s.r.o. (N4G)

Gas Connect Austria GmbH.

## **Table of contents**

A. Non-binding demand indications	4
B. Demand assessment	4
C. Conclusion for the (non)-initiation of an incremental capacity project/process	4
D. Fees	4
E. Contact information	5

## **A. Non-binding demand indications**

In line with Art. 26 of Regulation (EU) 2017/459, the transmission systems operators conducting this market demand assessment report gave network users the opportunity to submit non-binding demand indications to quantify potential demand for incremental capacity. The period for submission on both sides of the border between the Czech entry-exit system and the Austrian entry-exit system (Market Area East) was from 5 July to 30 August 2021. Within this period, no non-binding demand indications regarding the respective border were received by the TSOs.

## **B. Demand assessment**

The received demand indications within the current incremental process between the Czech entry-exit system and the Austrian entry-exit system (Market Area East) are zero. There is no direct transmission infrastructure connecting the two market areas of the Czech Republic and Austria.

## **C. Conclusion for the (non)-initiation of an incremental capacity project/process**

According to the assessment result of the non-binding demand indications under point B, no demand levels for incremental capacity need to be developed, and thus no incremental capacity project will be initiated. Based on the aforementioned decision, no technical studies for incremental capacity projects will be conducted.

## **D. Fees**

For the incremental capacity cycle addressed by this report, the TSOs involved did not introduce a fee for the evaluation and processing of non-binding demand indications.
